# FIG 1

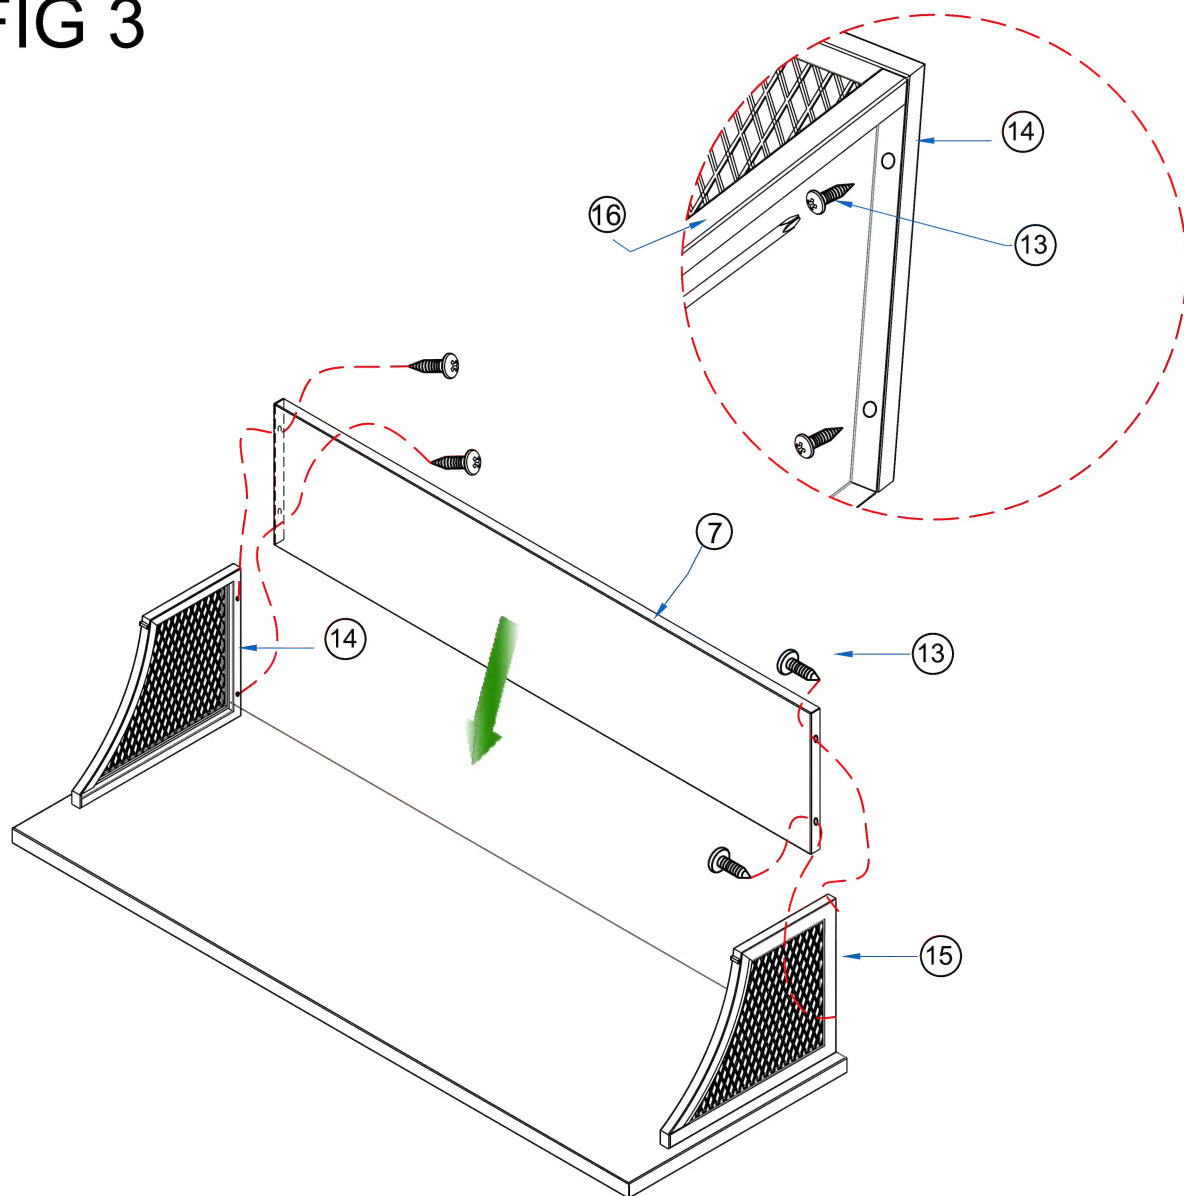

- Screw 4 foot knobs (6) onto the bottom of main cabinet (1) and adjust level.

# FIG 2

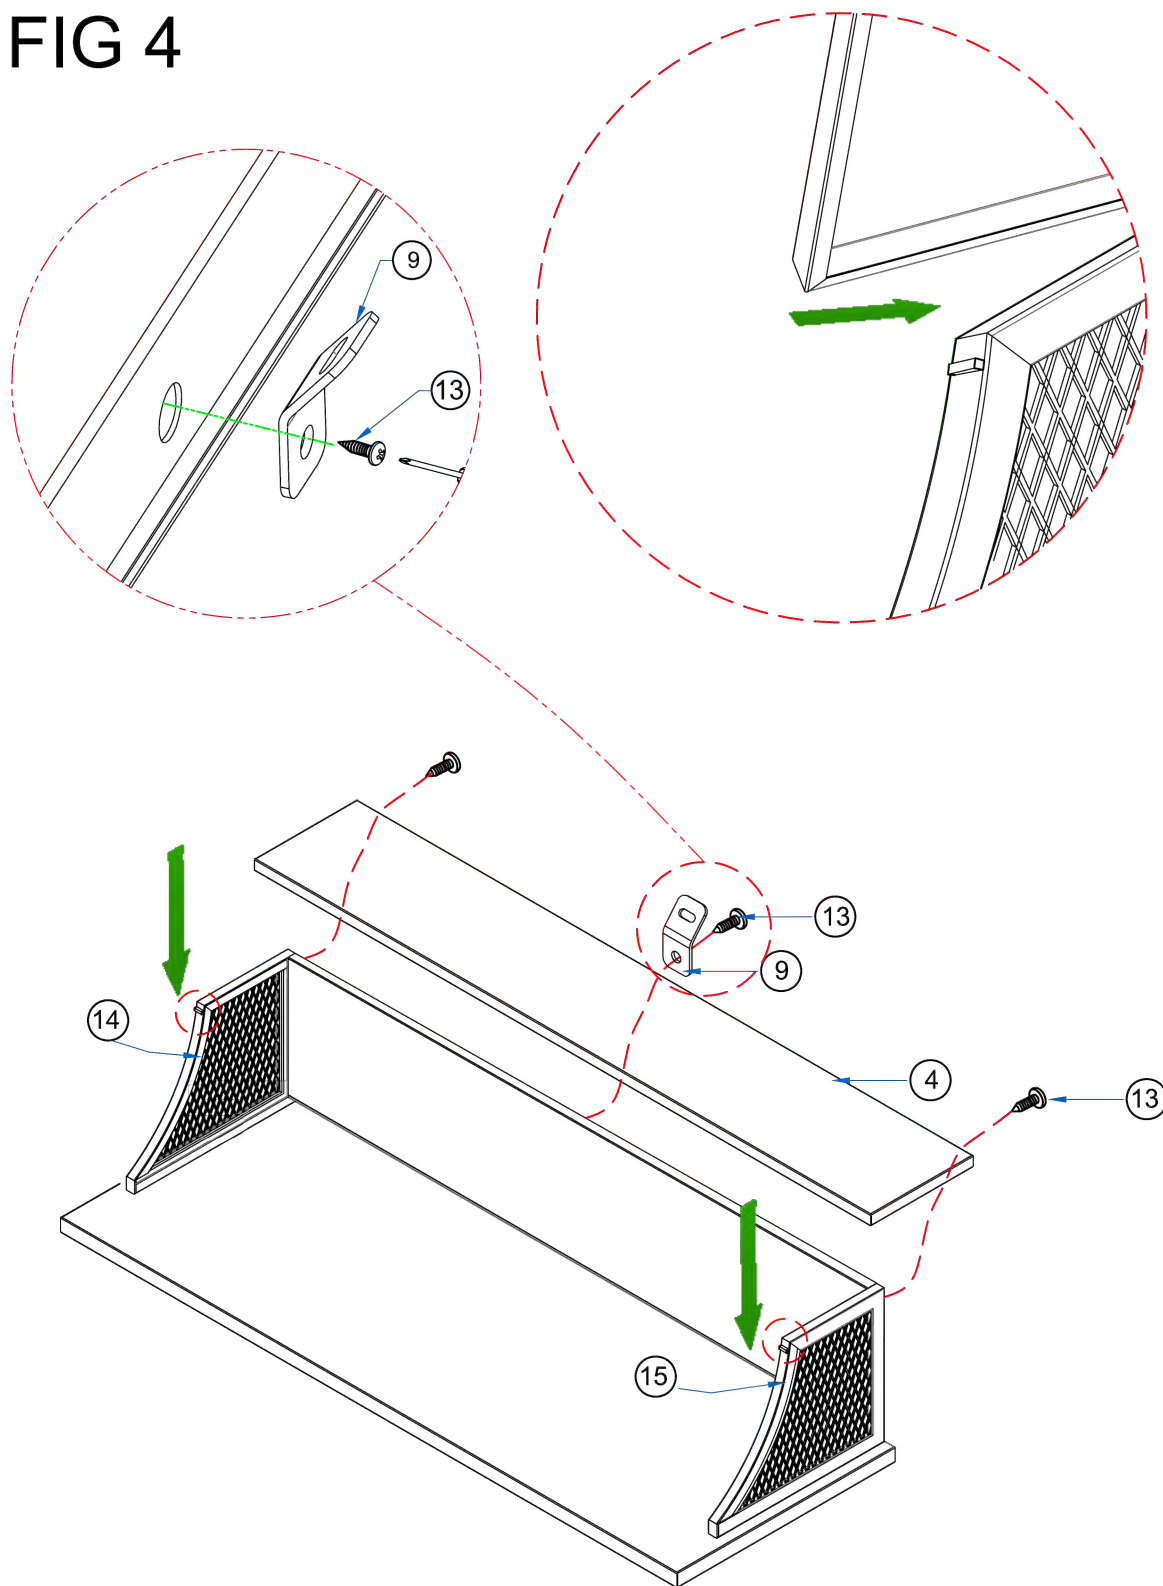

- Tighten the top left side panel (14) and top right side panel (15) on the top cap (3). Using 4PCS 1/8 machine screw.

# FIG 3

- Tighten the back panel (7) to the two side panels using metal screw (13).

# FIG 4

- Slide the top cap (4) onto the assembled side panels using metal screw (13). Tighten one rectangle metal plate (9) to top cap with metal screw (13) using a Philips screwdriver.

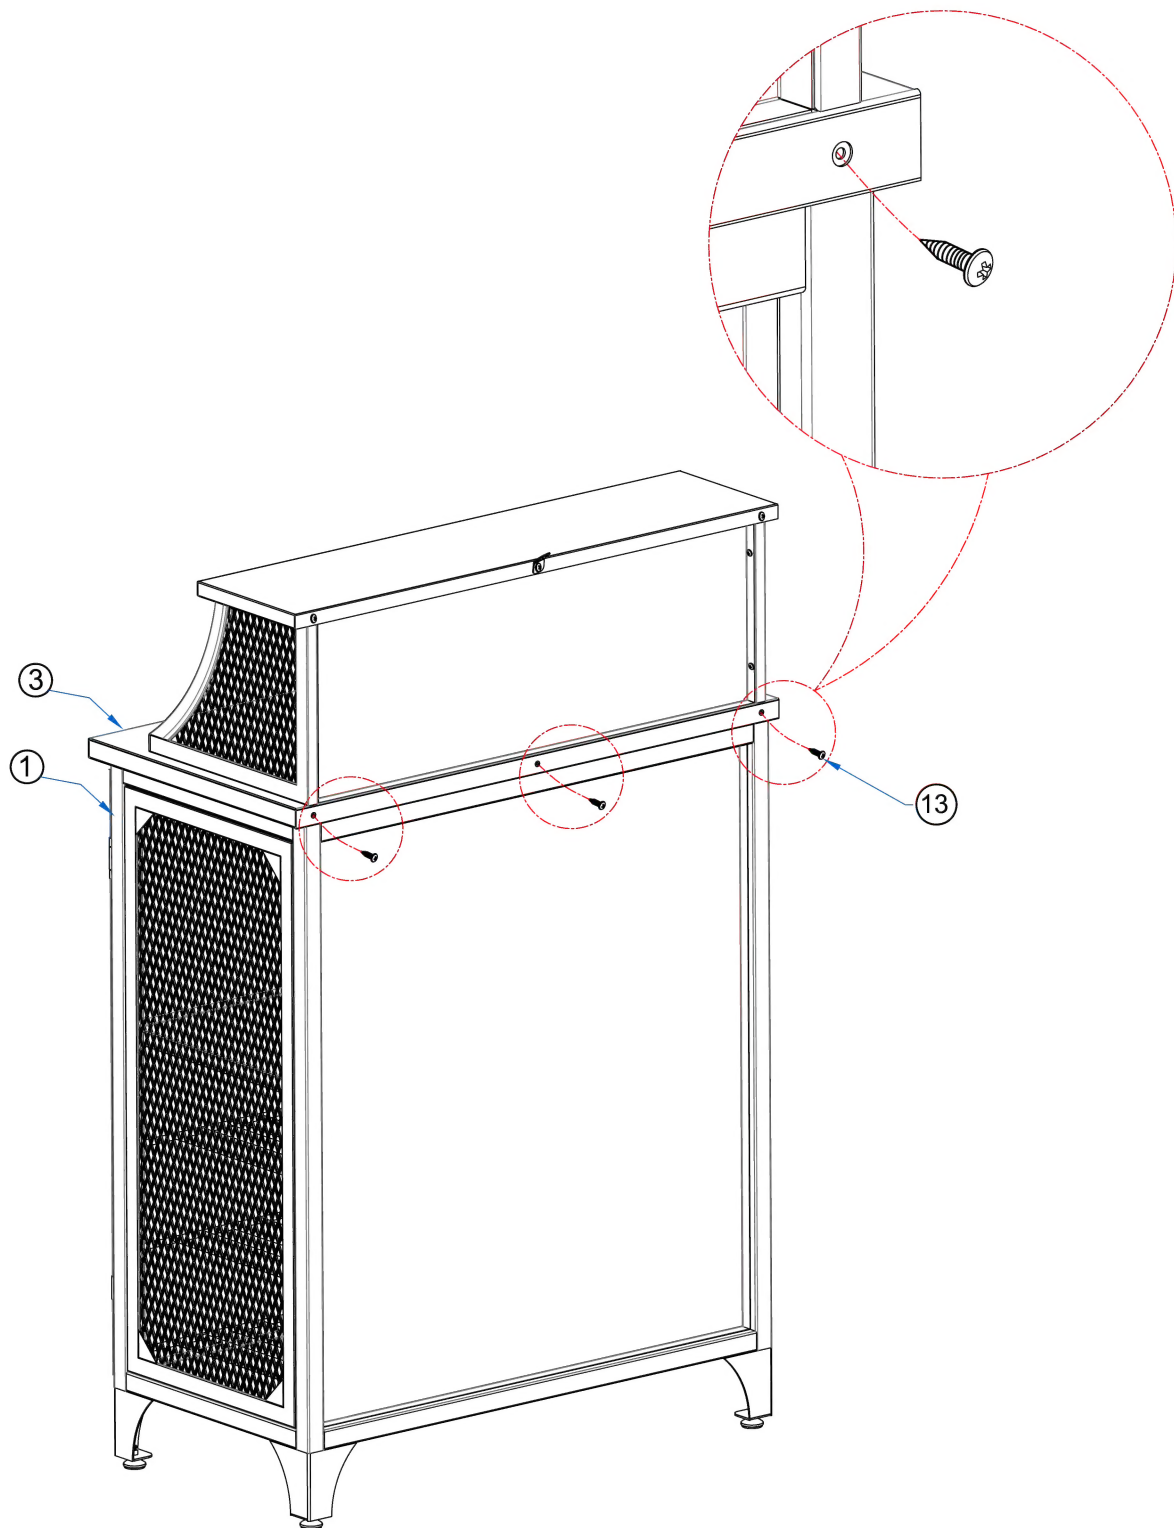

**FIG 5**

This diagram illustrates the assembly of a cabinet top. A separate top panel, labeled with a circled '3', is shown being lowered onto the main cabinet frame. Red dashed lines indicate the alignment of the top panel with the frame's edges. A green arrow points downwards from the top panel towards the front edge of the cabinet frame, indicating the direction of assembly. A circular inset in the upper right corner provides a magnified view of the corner joint, showing how the top panel's edge fits into a channel on the frame, secured by a small pin or clip.

- Slide the assembled top shelf onto main cabinet (1).

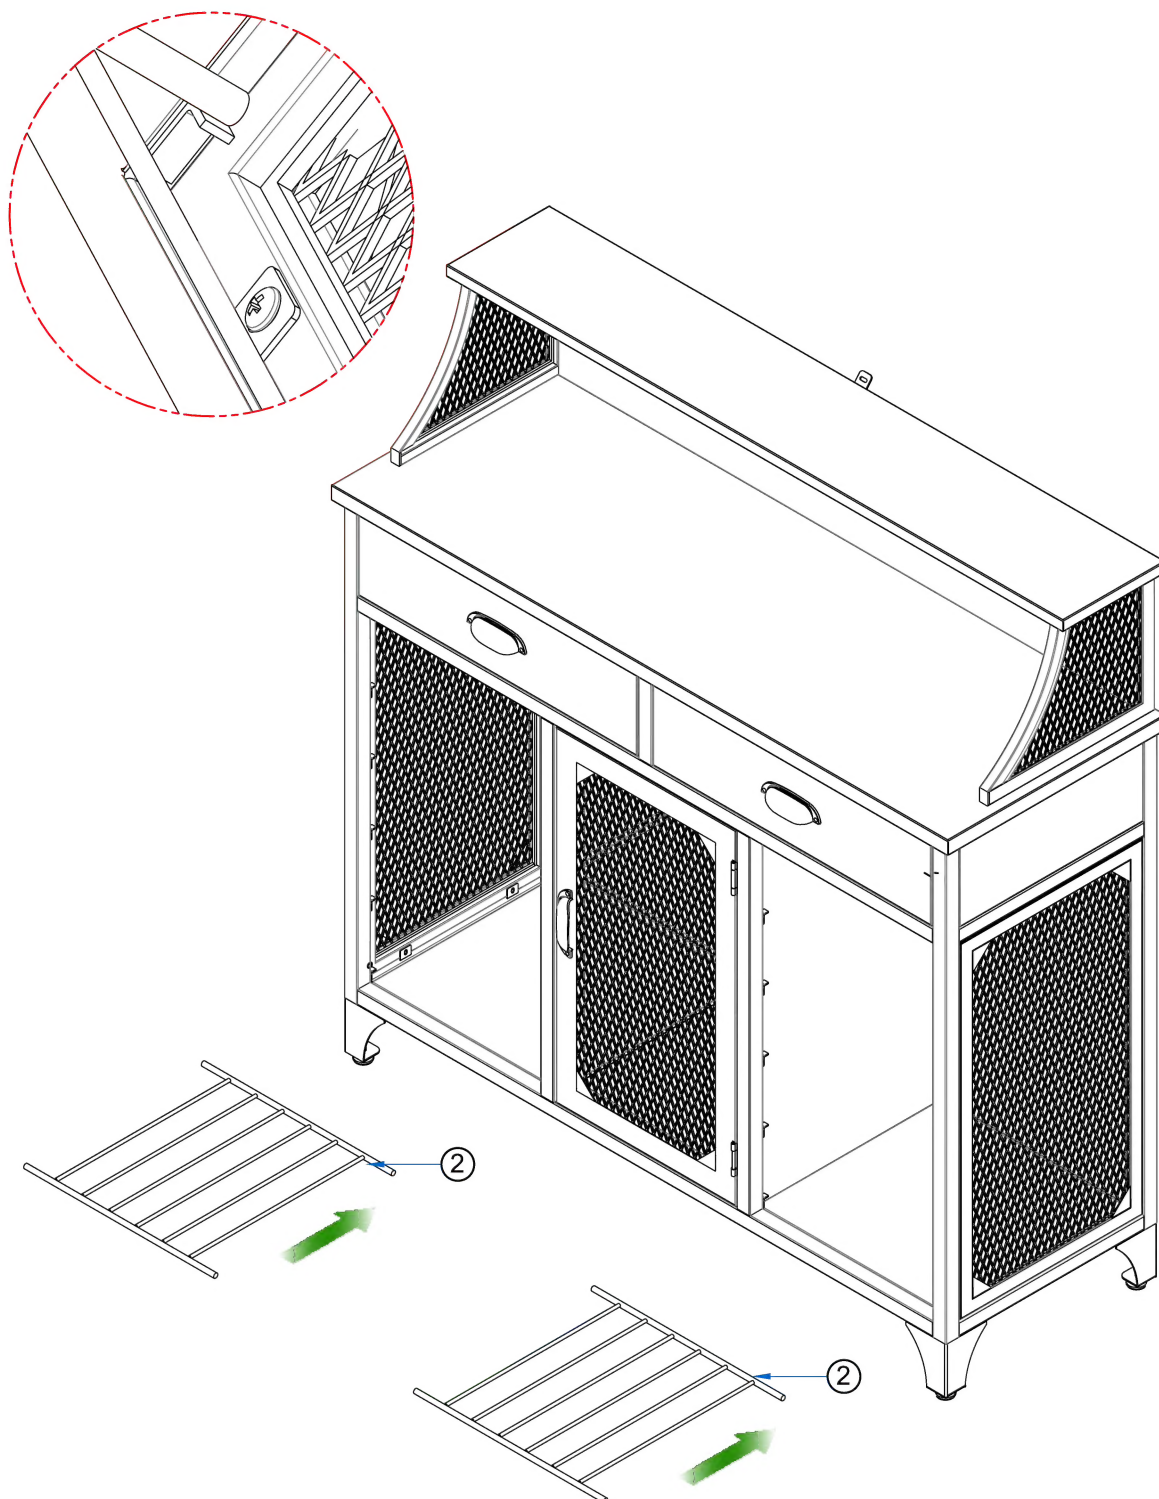

**FIG 6**

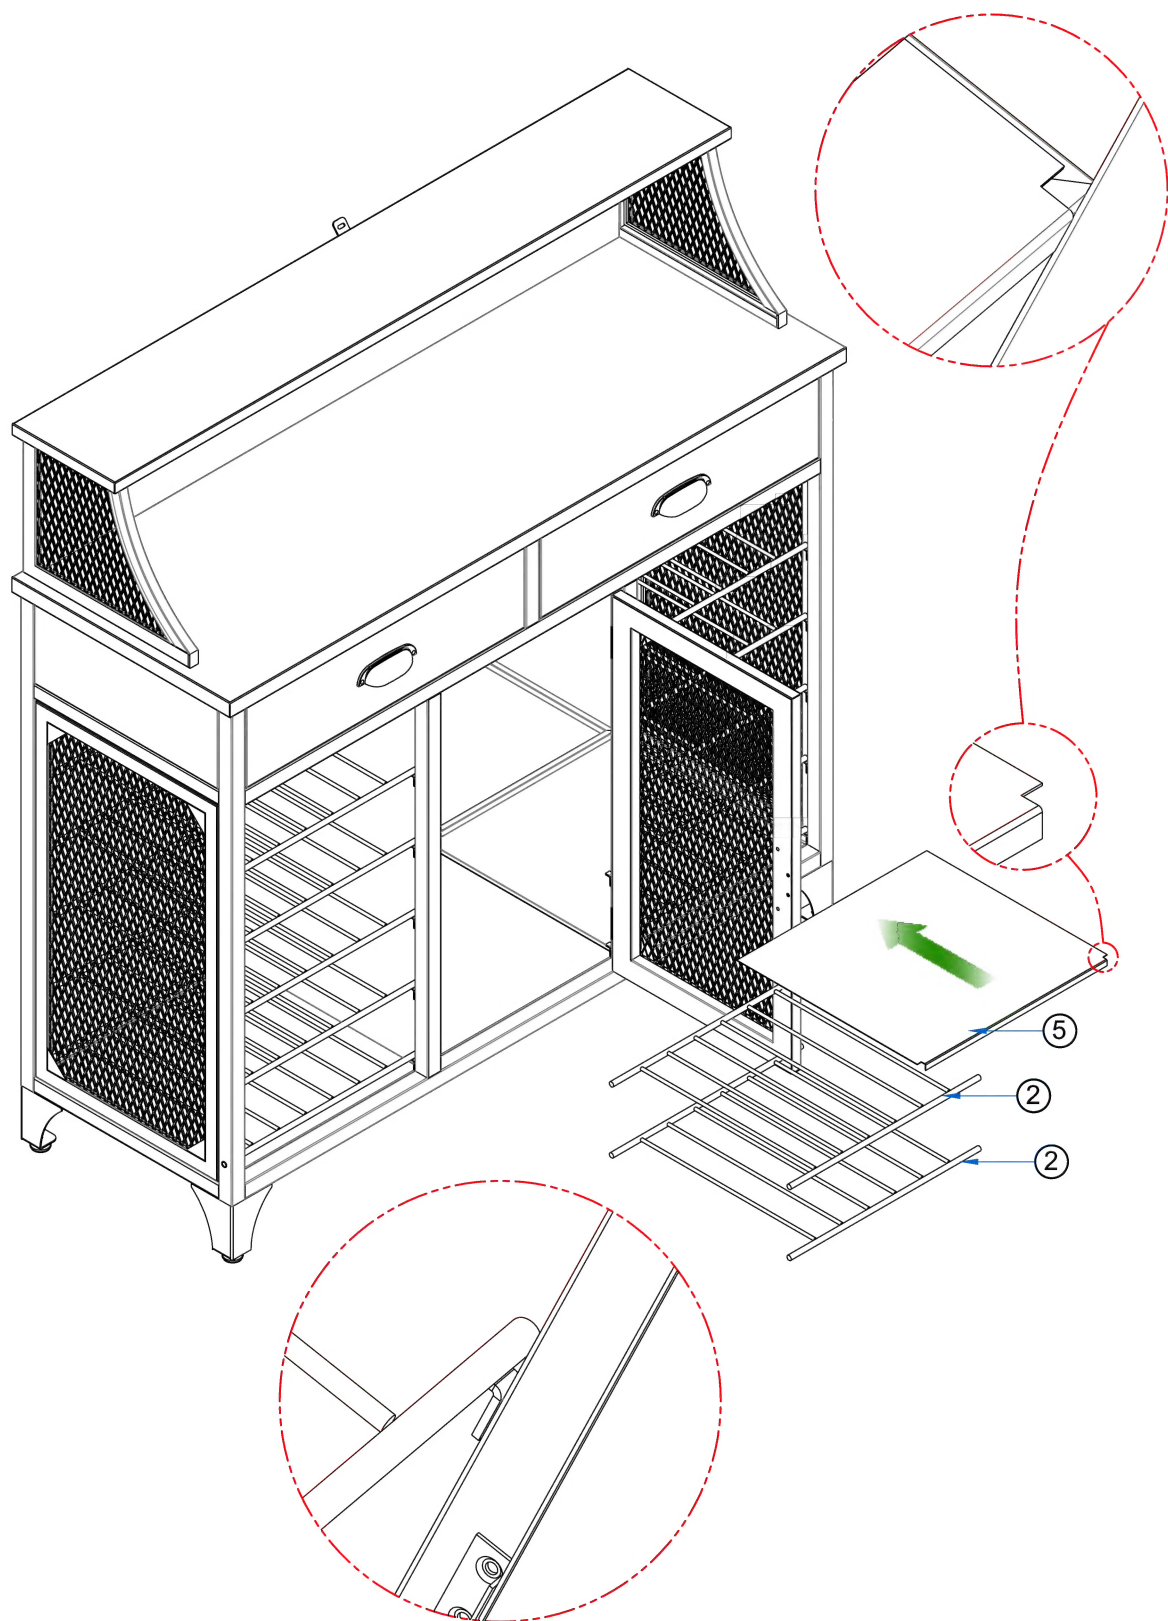

- Tighten the assembled top shelf with metal screw

# FIG 7

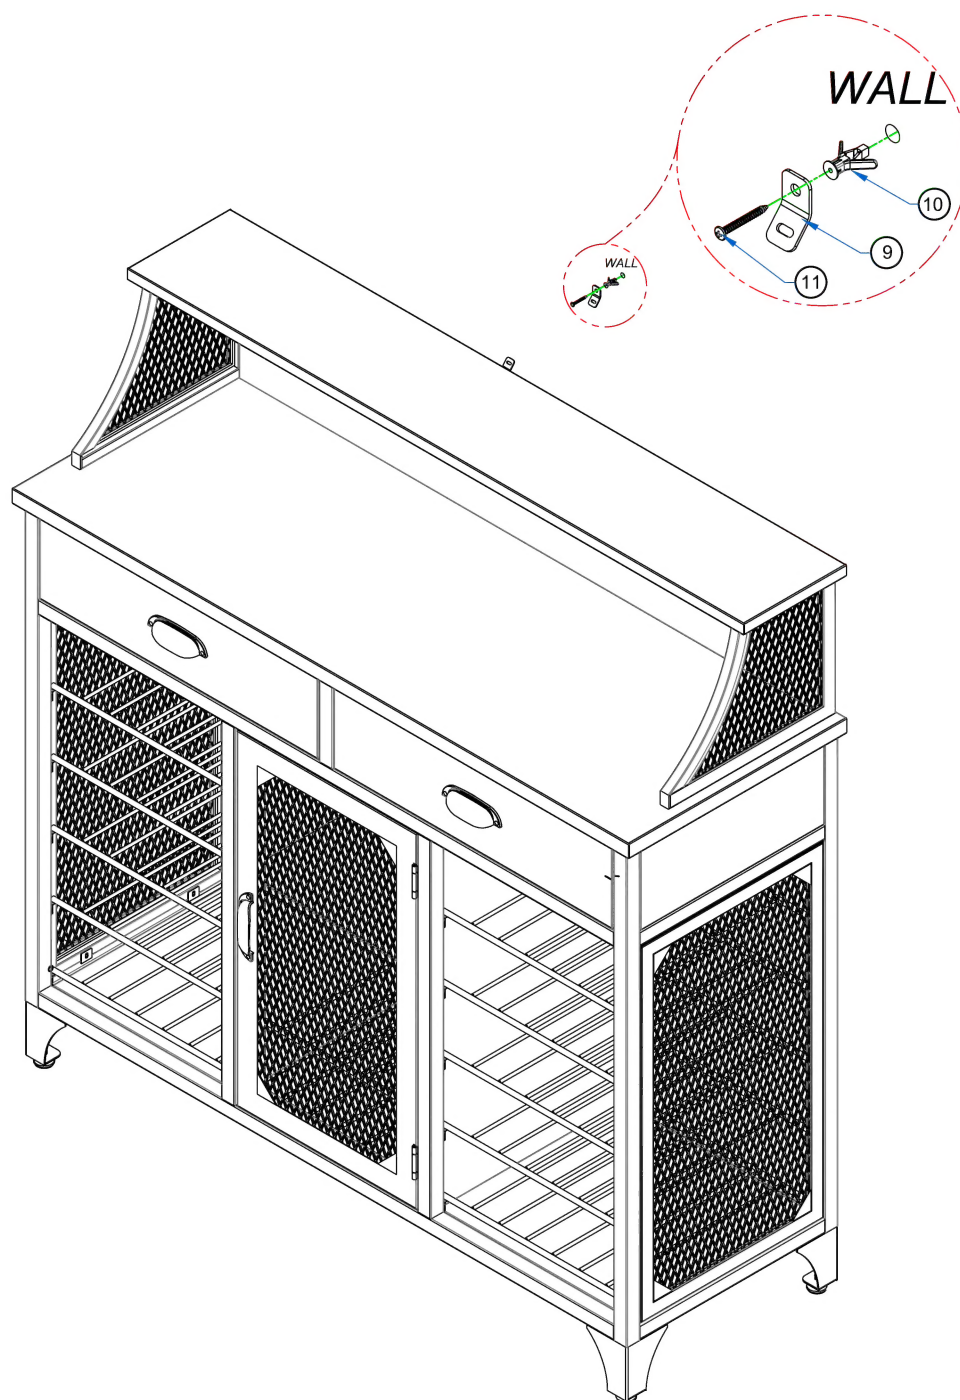

- Tilt and insert ten wine bottle shelves (2) into the shelf holders within the cabinet. Start at the bottom and work upwards.

# FIG 8

- Tilt and set shelf (5) onto the shelf holder within the inner cabinet - ensure the larger gap is in the front. Attach another two wine bottle shelves (2).

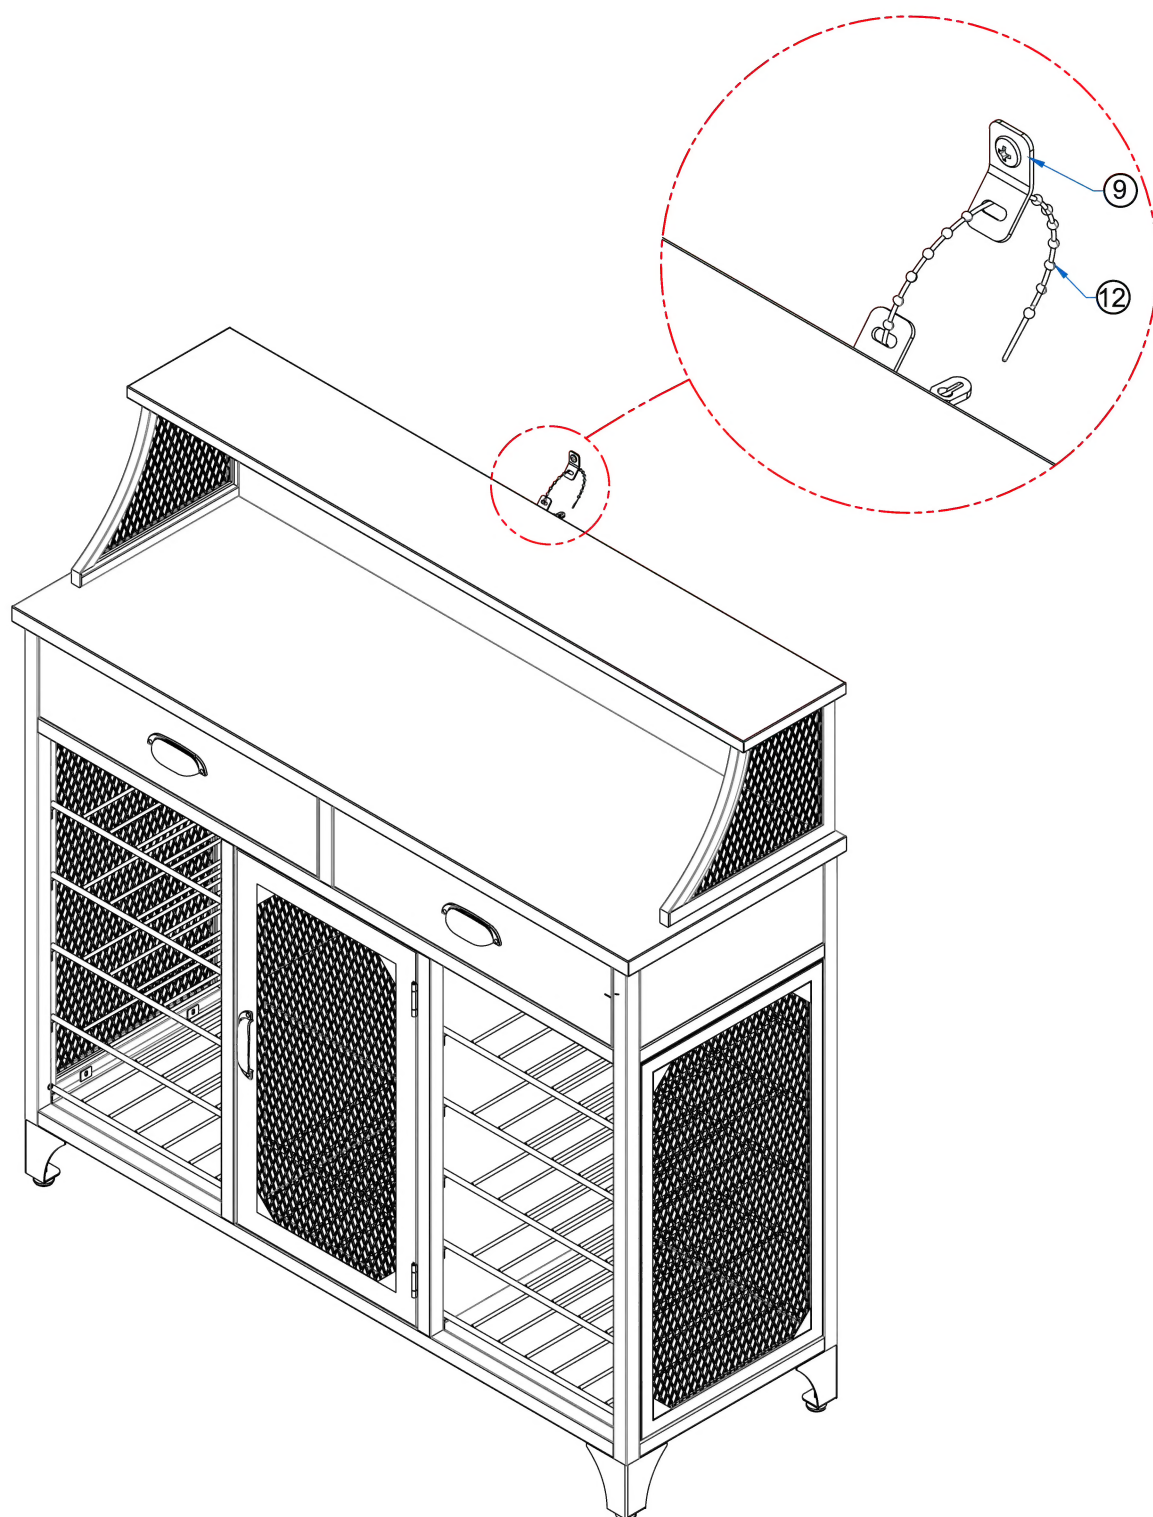

# FIG 9

- Place the cabinet at the desired position and mark the insertion point for the plastic anchor (10). Using the proper hardware for your wall type, drill  $\frac{1}{4}$ " hole. Then tighten another rectangle metal plate (9) to the plastic anchor (10) by using the  $1\frac{1}{2}$ " metal screw (11).

# FIG 10

- Using the plastic band (12), connect two rectangle metal plates (9).
